## EXPERIENCE

### Excellence Technology

Jan. 2026 – July 2026

#### MERN Stack Developer Intern

Mohali, Punjab

- Developed full-stack web applications from scratch leveraging **MongoDB, Express.js, React.js, and Node.js**
- Engineered responsive user interfaces utilizing React.js and seamlessly integrated RESTful APIs
- Managed dynamic MongoDB database operations, effectively resolving application bugs to boost overall performance
- Collaborated tightly with agile team members throughout the entire project development lifecycle

## PROJECTS

### OPINIFI – Finance Platform | *React, Node, Express, MongoDB, Stripe*

[GitHub](#)

- Developed a full-stack opinion platform enabling users to earn rewards and brands to harvest consumer insights
- Designed comprehensive database schemas and implemented robust secure authentication utilizing JWT
- Integrated an intelligent AI Chatbot and Stripe payment gateway alongside an automated Admin Dashboard

### Chess Master | *React.js, Vite, Node.js, Socket.IO, MongoDB*

[GitHub](#)

- Constructed a real-time full-stack chess application featuring local play, AI opponents, and online multiplayer
- Engineered live gameplay synchronization and low-latency communication via **Socket.IO**
- Built active leaderboard mechanisms, dynamic ranking systems, and secure user authentication capabilities

### DocFormat | *React.js, Vite, HTML5, CSS3*

[Live Demo](#) | [GitHub](#)

- Created a web-based utility tool automating the conversion of unstructured text into SBSSU-compliant academic reports
- Developed a custom document parsing engine alongside an RTF generation system with live Word preview
- Automated structural formatting including dynamic Table of Contents generation and precise UI layout styling

## EDUCATION

### Sardar Beant Singh State University (SBSSU)

2022 – 2026

*Bachelor of Technology in Computer Science Engineering (CGPA: 7.42)*

Gurdaspur, Punjab

### St. Kabir Public School

2022

*Class XII, CBSE (Non-Medical) – 67.4%*

Gurdaspur, Punjab

## SKILLS

**Languages:** JavaScript, Python, HTML5, CSS3

**Frontend:** React.js, Tailwind CSS, Redux Toolkit, Vite

**Backend:** Node.js, Express.js, REST APIs, JWT, Socket.IO

**Tools & DB:** MongoDB, Git, GitHub, VS Code, Postman, Vercel, Netlify

## CERTIFICATIONS & ACHIEVEMENTS

**Certifications:** MERN Stack Development (Excellence Technology), Python Programming & AI/ML (CBA Infotech)

**Achievements:** NCC C Certificate, Successfully completed a 6-month MERN Stack Internship

**Interests:** Full Stack Development, Tech Learning, Running, Gym Workout, Frontend Development
